Sir:

**REISSUE DECLARATION UNDER 37 C.F.R. § 1.175**

We, Erland R. SANDSTROM, Kenneth J. SHANTON, and Dean P. SWOBODA,  
all citizens of the United States, with residences and post office addresses as listed  
below, do hereby state and declare as follows:

1. We believe we are the original, first, and joint inventors of the subject  
matter which is described and claimed in United States Patent No. 6,379,497, granted  
on April 30, 2002, and for which a reissue patent is sought on the invention entitled  
"BULK ENHANCED PAPERBOARD AND SHAPED PRODUCTS MADE  
THEREFROM."

2. We hereby state that we have reviewed and understand the contents of  
the above-identified specification, including the original patent claims, and the  
specification and claims in the Preliminary Amendment filed herewith.

3. We acknowledge the duty to disclose information that is material to the examination of this reissue application in accordance with 37 C.F.R. § 1.56(a).

4. We believe that U.S. Patent No. 6,379,497, pursuant to 37 C.F.R. § 1.175(a)(1), is at least partly inoperative or invalid by reason of a defective specification or drawing, or by reason of our claiming more or less than we had the right to claim in the patent.

5. At least one error which is a statutory basis for reissue is that the recited GM Taber stiffness multiplier value of  $0.0084w^{2.63}$  was misstated both in the specification and the claims of the issued patent. Further, the units for the GM Taber stiffness multiplier values were stated incorrectly. Figs. 12-15 possess incorrect legends; the captions for the line points were switched at the time formal drawings were filed. In addition, the values for GM Taber and tensile stiffness recited in dependent claims 2 and 34-35 do not fall within the range of values stated in claim 1, upon which they depend. Further, the specification and the claims contain several typographical errors.

6. The above-described errors and all other errors corrected in this reissue application arose without any deceptive intent.

7. We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. § 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
